

Statistics Software

NEW

STAT - 6

is not only a very comfortable and easy to operate graphic evaluation software, but also allows to measure online with all Coating Thickness Meters MEGA-CHECK (with interface)

With the new Statistics-Software **STAT-6** the data of all **LIST Coating Thickness Meters, Ultrasonic Thickness Gauges, Concrete Thickness Meter and Field Strength Meters** with serial interface can be easily evaluated statistically.

Once the data transfer has been performed, statistics, bar and line diagrams are displayed automatically on the screen of the computer. In addition a form can be created with the name of the customer and characteristics of the test object, and limit values can be set which are displayed in the graphics. The graphics can be stored in a BMP file. The measured data, the form and statistics can be transferred into WORD or integrated in other test software just by pressing one key.

An outstanding feature of this software is the possibility to measure online with all the Coating Thickness Meters MEGA-CHECK (with serial interface). Just connect the device to the computer and the graphic representation is updated immediately as soon as a reading is recorded, making it possible to follow up the measured data and the complete test process on the screen of the computer or laptop.

STAT-6: Two applications in one software !

- Take measurements with the device, store in the data logger and evaluate afterwards with STAT-6
- Connect MEGA-CHECK directly to the computer or laptop and take measurements. An optimum test system for quality control in the laboratory !

Technical Data

PC required:	486- or Pentium PC from 16 MB-RAM
Connection:	Serial Interface RS 232
For LIST Coating Thickness Meters:	MEGA-CHECK* / MULTI-CHECK FE / DUO-CHECK-ST / BDT-ST
For LIST Ultrasonic Thickness Gauges:	MX-5 / DL / PX-7 / DL
For LIST Field Strength Meters:	MP-100 / MPU-ST
	CD-ROM available in german and english language.

* Online measurement for MEGA-CHECK FE / FE-S from version F2.1 / MEGA-CHECK FN from n2.1
